

SOGEVAC NEO D

Double stage rotary vane pump

Maximum ease of work

Oil loss < 1 ppm thanks to integrated exhaust filter and oil return

- Protects the workers & environment
- 10 x lower oil loss vs other pumps with external exhaust filter
- 1000 x lower oil loss vs other pumps without external exhaust filter

Maximum uptime

- Up to 3 years / 24'000 h maintenance free operation on clean applications
- 3 x better than anything else on the market
- 3 years warranty possible

Maximum comfort

- Only 54 dB(A) on 16 / 25 sizes
- Only 57 dB(A) on 40 / 65 sizes
- Even with open gas ballast up to 8 dB(A) quieter than conventional pumps
- You don't hear it!

SOGEVAC NEO D

Double stage rotary vane pump

Minimum TCO

- Best power efficiency on the market
- No oil loss = less oil costs
- Easy & fast maintenance and service with patented exhaust filter design

Innovations

- All sizes possible with single phase power supplies
- Monitoring accessories
- ATEX Cat 3 available!
- 4 different patents pending!

More Benefits

- Cool oil temperatures good for resistance against polymerisation
- Many accessories & variants available (e.g. EM gas ballast)
